About Us

Primus Global Solutions (PGS) is primarily in the business of providing **“Comprehensive Solutions”** in terms of distribution of critical products & services. PGS specializes in providing global solutions to diverse industry with products & services conforming to international standards (ASTM, ISO, IEC) & specifications.

PGS believes in delivering best in class quality products & services with customer satisfaction as paramount by ensuring high level of professionalism and exceptional customer service.

Mission:

Our mission is to supply high-quality innovative solutions and empower businesses to achieve their goals efficiently and sustainably

Value:

Trust, Respect, Transparency and Integrity are our essential attributes in building up a successful and prosperous business.

Customers:

We are committed to exceed the expectations of our customers by providing high quality products & services.

Industries:

- Renewable Energy
- Oil & Gas
- Petrochemicals
- Infrastructure & Ports
- Construction
- Power & Utilities
- Mining
- Aerospace & Marine
- Mobility
- Manufacturing
- Defense

Distribution

ZRC® Cold Galvanizing Compound

Proven protection equivalent to hot-dip galvanizing. With 95% zinc by weight in dried film, ZRC® Cold Galvanizing Compound exceeds **ASTM A780** and **SSPC Paint 20** standards.

Its commitment to excellence in providing highest quality standards, has resulted in achieving “**ISO 9001:2015**” certification

Equivalent to hot-dip galvanizing, ZRC’s Cold Galvanizing Compound is manufactured with the highest purity ASTM D520 Type III zinc dust. With flexible application formats, our product is the industry standard in combating corrosion, for true galvanic protection.

Application:

- Field applied galvanizing
- Repairing hot-dip galvanizing
- Rust proofing welds
- Repairing inorganic zinc
- Re-galvanizing of worn hot-dip
- Metal fabrication
- Construction
- Manufacturing/OEM
- Antenna Towers
- Petrochemical Plants
- Roads & Bridges
- Tanks & Defense Hardware
- Marine & Offshore
- Cooling Tower
- Many more

Procurement & Supply

Procure and supply products & services which helps businesses to navigate the complexities of international markets while achieving cost savings, ensuring quality, and managing risks.

We specialize in sourcing coating & corrosive preventive products from manufacturers across US, Europe & India

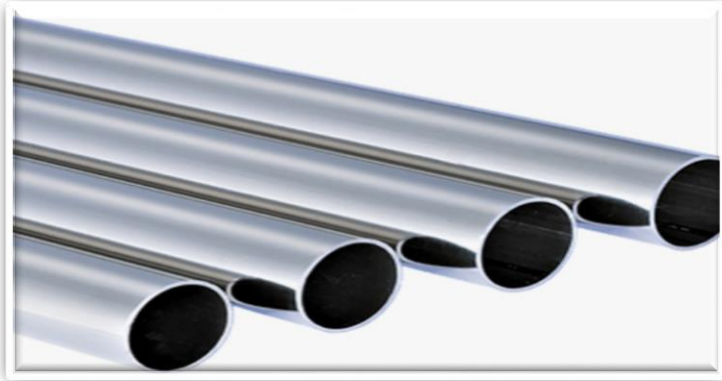

Key Functions

- Sourcing
- Supplier Management
- Cost Optimization

We also represent **LiquiGuard Technologies®**, Inc – USA, a global eco- and bio-friendly protective coatings R&D & manufacturing company across geographies

Pipes

Supply of best-in-class steel pipes and tubes meeting global quality standards and specifications to suit different applications across industries.

- Seamless Pipes and Tubes
- Welded Pipes and Tubes
- Stainless Steel Pipes and Tubes
- Galvanized Steel Pipes
- Carbon Steel Pipes and Tubes
- Alloy Steel Pipes
- Structural Steel Pipes and Tubes

Different types of steel pipes and tubes catering to a wide range of needs across industries, ensuring the right fit for specific requirements such as pressure, temperature, and environmental conditions and conforming international standard [ASTM, ISO, IEC] & specifications

Electrical

Meeting requirement and specifications of every project. Be it for routing of High Voltage Cables, creating an infrastructure to lay UTP CABLES or and even for providing a raceway for Fiber optics. Recommendation of contractors, project engineers, end clients and Electrical consultants.

- Aluminum Cable Tray
- Hot Dipped Galvanized
- Powder Coated
- Pre-Galvanized

Conforming to international standard & specifications

Fasteners

A wide range and customized fasteners products as per customer requirements can be Supplied. Stainless steel or Galvanize grades for major contractors and consultants working on projects in the power, renewable energy, wind, and infrastructure etc.

Quality & standard both of the client's choice can be provided

Conforming to international standard & specifications
